PROFESSIONAL SUMMARY

Video editor and multimedia production professional with experience in corporate video, motion graphics, live broadcasts, and post-production for a gaming-industry client. Skilled in Adobe Premiere Pro, After Effects, Audition, and Media Encoder. Experienced in video assembly, animated graphics, audio cleanup, multicamera production, and media delivery; collaborated with communications and production teams on live events and executive presentations.

TECHNICAL SKILLS

Operating Systems: Windows, macOS | **Video Editing:** Adobe Premiere Pro; timeline assembly and pacing; multicamera workflows; color correction; media encoding | **Motion Graphics and Design:** Adobe After Effects; animated lower thirds, stingers, and slates; Photoshop; Illustrator | **Audio and Production:** Adobe Audition; audio cleanup and synchronization; TriCaster; OBS; vMix; camera operation; NDI/SDI

PROFESSIONAL EXPERIENCE

AV Technician | Guckenheimer Services, Client: Riot Games **2022–2026**

- Edited recorded video content in Adobe Premiere Pro, assembling footage and preparing media for production and delivery.
- Created motion graphics and animated production elements, including lower thirds, stingers, and slates, using After Effects.
- Cleaned and synchronized audio in Adobe Audition and prepared video exports using Adobe Media Encoder.
- Supported multicamera live streams, town halls, and executive presentations through technical directing, camera operation, graphics playback, and recording.
- Partnered with communications and production teams; organized media and troubleshot recording and graphics systems to keep productions on track.

Space Occupancy Assistant and Data Entry Specialist | Bogaard Group International/ Guckenheimer Services, Client: Riot Games **2018–2022**

- Produced digital wayfinding maps and maintained campus display information in Robin, helping employees locate teams, rooms, and workplace resources.
- Supported cross-team project coordination, including video shoots; developed spreadsheets and Google Apps Script workflows for planning and reporting.
- Coordinated with cross-functional teams on moves, space changes, documentation updates, and occasional video-production support while protecting data accuracy.

DTG Production Shift Manager | Printful **2016–2018**

- Led day-to-day production operations, investigated machine and digital-file issues, and coordinated corrective action with art and production teams.
- Created end-of-day reports, tracked production metrics, documented procedures, and maintained quality-control standards across high-volume workflows.
- Developed repeatable operating procedures that were adopted across multiple facilities and trained team members on consistent production practices.

EDUCATION AND TRAINING

Graphic Design, Platt College | Photography and Videography Certificate, West Valley Occupational Center
